Continuous Improvement Training

8D Problem-Solving (Eight Discipline) is a step-by-step problem-solving methodology popularized by Ford Motor Company. With the 8D problem-solving, project teams are chartered to address and solve problems by uncovering and eliminating the root cause of the problem.

What trainees will learn:

- Understand and use the 8D Problem-Solving process to solve problems.
- Work on and contribute to a problem-solving team
- Apply the appropriate problem s-solving tools throughout the 8D problem-solving process
- Implement short term and long-term actions (implement countermeasures)

How this training will benefit your company and employees:

Students who attend this course will be able to help their organization in reducing customers problems due to fast responses, better understanding of true root cause(s). Students and organizations will also learn how to implement true countermeasures through the use of control systems and control plans.

This training is typically offered in a range of 8 hours. Onsite training may be customized to meet your business needs.
