

# Microsoft Power BI

## Available In:

- English
- Spanish
- Virtual

## *Use Power BI to advance your Data Analysis*

The Power BI course is a comprehensive program designed to equip participants with in-depth knowledge of Power BI. Starting with Power BI Desktop, learners will connect to data sources, create impactful reports, and master advanced data manipulation and visualization techniques. Further modules cover data modeling, managing report layouts, and using the Power BI Web App to deploy dashboards and share insights. This course transforms beginners into proficient users, enabling them to enhance decision-making and business intelligence capabilities effectively.

### What will trainees learn?

- Introduction to Power BI
- Connecting to Data Sources
- Creating Reports and Visualizations
- Data Transformation and Sanitization
- Data Modeling and Relationships
- Advanced Visualization Techniques
- Using the Power BI Desktop and Web App
- Deploying Dashboards and Sharing Insights
- Managing Report Layouts and Options
- Interactive Data Exploration with Slicers
- Insights with Maps, Gauges, and KPIs
- Effective Use of Power BI Features

### How will this training benefit your company and employees?

Participants will master essential Power BI skills including connecting to data sources, creating impactful reports and visualizations, transforming, and sanitizing data, managing data relationships, and deploying dashboards. They will also learn advanced visualization techniques, utilize both the Power BI Desktop and Web App, explore data dynamically with slicers, and leverage features such as maps, gauges, and KPIs to enhance data interpretation and sharing insights effectively.

*Training is recommended to be deployed in 4- or 8-hour blocks over a total of 8 hours.*

MACRO Development is a leading provider of specialized employer training programs focused on mastering Microsoft's Power Platform and other popular Microsoft tools. With over 15 years of experience in sales and community development, our expert facilitators deliver customized, interactive workshops that cater to the unique needs of each organization. We equip employers with advanced skills to leverage Microsoft technologies effectively, enhancing communication, productivity, and operational efficiency in the workplace. Our training solutions are designed to transform business processes and drive success, ensuring organizations achieve their business objectives.
