Current Project Budget: \$3.8M

Delivery Method: Design-Bid-Build

Architect: Perkins Eastman Architects

Contractor: Hamel Contracting, Inc.

Construction Manager: Kitchell

Project Manager: AECOM

Project Status: Completed

Start of Const.: May 2022

Project Completion: Jan 2025

Local Hire: 56%

Project Goal: Modernize the Child Development Center through strategic renovations to create an exceptional early learning environment with up-to-date classrooms that foster child development and innovative teaching practices.

Project Description

- This renovation initiative will revitalize the Child Development Center, implementing cosmetic and functional upgrades to modernize the facility's interior spaces.
- The project scope focuses on transforming the classrooms into innovative, nurturing environments optimized for early childhood education.
- The updated spaces will incorporate the latest design principles and amenities to support engaging instruction and hands-on learning experiences that promote child development. By investing in these targeted improvements, the renovated Child Development Center will provide an enriching atmosphere that elevates teaching and learning practices.
