

Student Support Building

Project: Student Support Building Renovation

Square Feet: 5,513 sq. ft.

Current Project Budget: \$1.2M

Delivery Method: Design-Bid-Build

Architect: La Cañada Design Group, Inc.

Construction Manager: Kitchell

Project Manager: AECOM

Project Status: In-Design

Anticipated Start of Constr.: May 2025

Anticipated Project Completion: Sept 2025

Project Goal: To renovate and expand the existing Student Support Building, enhancing student services and creating a dedicated Cultural Center, while upgrading the building's systems to meet current standards and improve overall functionality.

Project Description

- The Student Support Building Renovation project aims to transform the existing facility into a modern and comprehensive hub for student support services. The primary objectives of this project are as follows:
- The project will expand the space dedicated to Student Health Services, providing improved facilities and resources to better serve the student population's healthcare needs.
- A new Cultural Center will be established within the renovated building, offering a space for cultural activities, events, and programs that celebrate diversity and promote inclusivity on campus.
- The project will undertake a comprehensive upgrade of the building's systems, including mechanical, electrical, plumbing, and other essential infrastructure, to ensure compliance with current codes and standards, enhance energy efficiency, and improve overall building performance.
