## Here's what has happened and what's to come!

### Welcome

Welcome to the newest issue of the SBCCDTA Newsletter.

This month we want to invite you and a guest to join us at a fall get together. It is a time to relax with food, drinks, and good company before the busy end of the semester.

### E-board Updates

Thank you to all that participated in the Member Survey that was sent out. We received 114 responses and we will be using that information to negotiate and plan events. Also, our e-board had an excellent time with part time faculty at the equity dinner. It was great getting to know you and hearing your concerns, particularly regarding seniority.

### Featured Membership Benefit

CTA has partnered with "Calm" to provide members with a free account plus an additional 4 links to share with loved ones! Go to <https://www.ctamemberbenefits.org/calm>, to access this benefit, it also works if you have an existing account.

### Helpful Information

- Part -time faculty can be paid up to eight (8) hours a semester for professional development work? Check page 15 of the contract for more details.
- Full-time faculty earn hourly sick pay on their overload assignments, in case it is ever needed.

### Negotiations Updates

- Working with the district on desktop version of Office for our part time faculty. The reimbursement form can be found on the district Wiki.
- The "High Intensity Lab" workgroup had finished the creation of the application and are awaiting your submissions! Look for an email from Jessy Lemieux with all the details. Applications are due no later than Friday, December 6, 2024 for each course.

### SBCCDTA Instagram

The SBCCDTA webpage should be available in December, but until then, follow @sbccdtat for additional updates and information.
