Goal 2 – Enrollment and Access

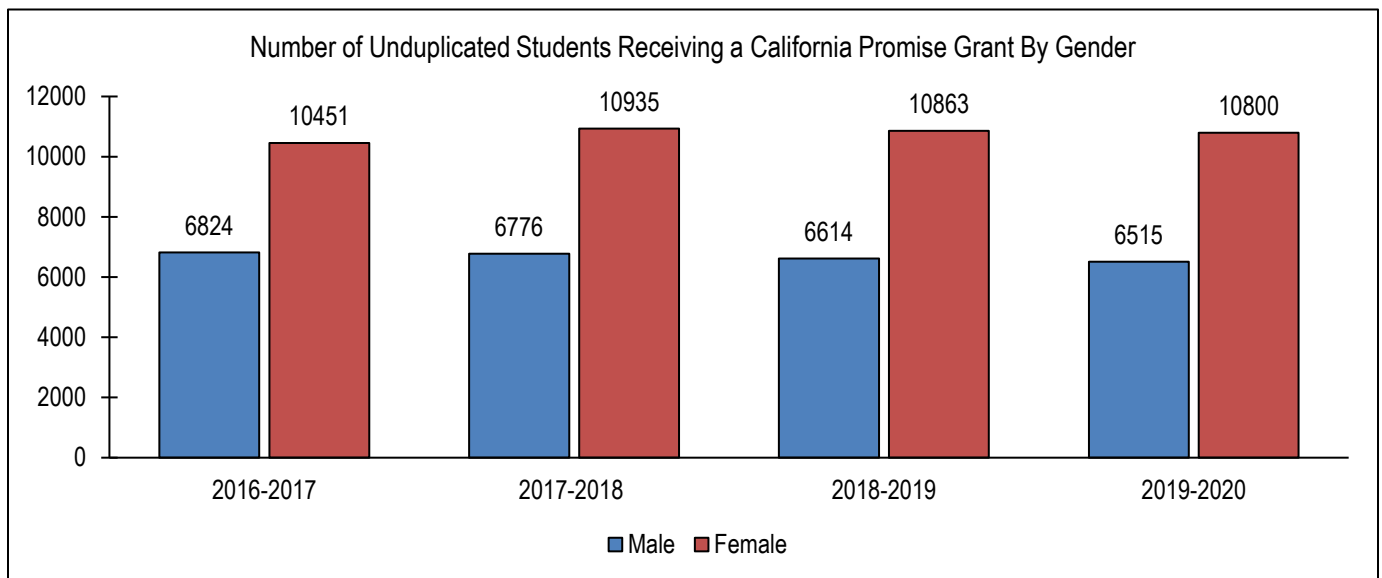

KPI II. C – Number of Unduplicated Students Receiving a California Promise Grant

Objective: Increase our student population to improve the higher education participation rate and supply a well-equipped, educated workforce for our communities.

Definition: This measurement reflects a count of the number of enrolled students that received a California Promise Grant in the academic year.

Measurement Frequency: Annual

KPI II.C Number of Unduplicated Students Receiving a California Promise Grant	2016-2017	2017-2018	2018-2019	2019-2020
Crafton Hills College (CHC)	4234	4792	4929	4977
San Bernardino Valley College (SBVC)	13046	12924	12552	12344
SBCCD (District Total)	17280	17716	17481	17321

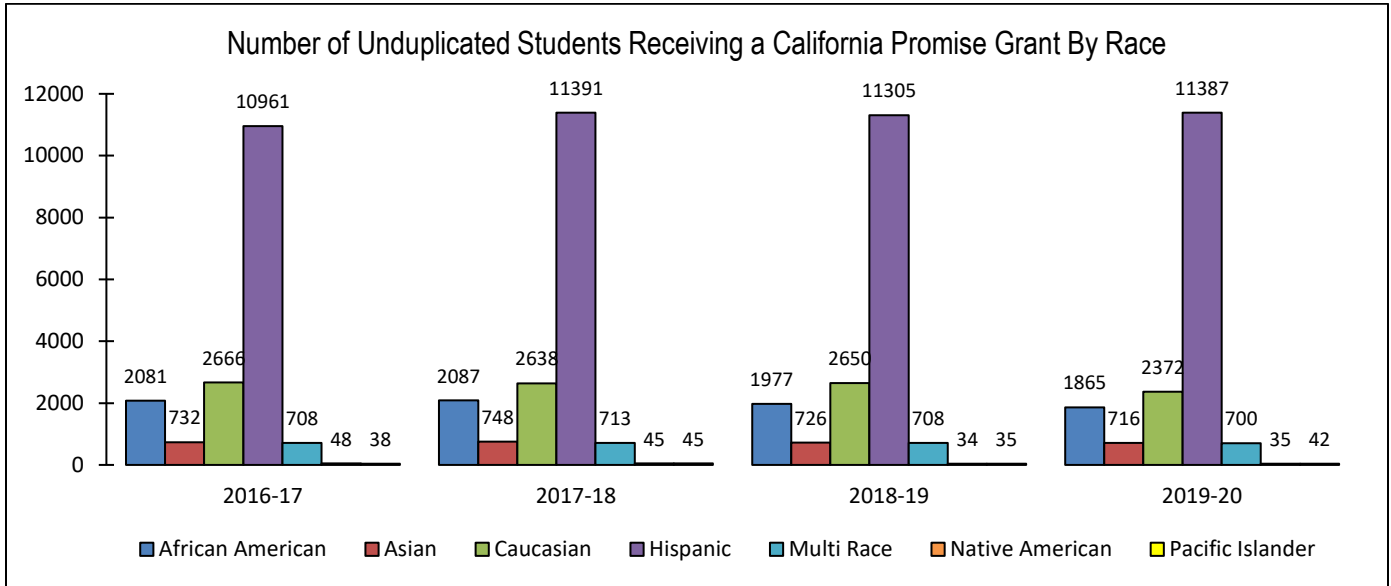

Note: Unknown gender students (20) were excluded from the bar graph but were included in SBCCD total in Table above.

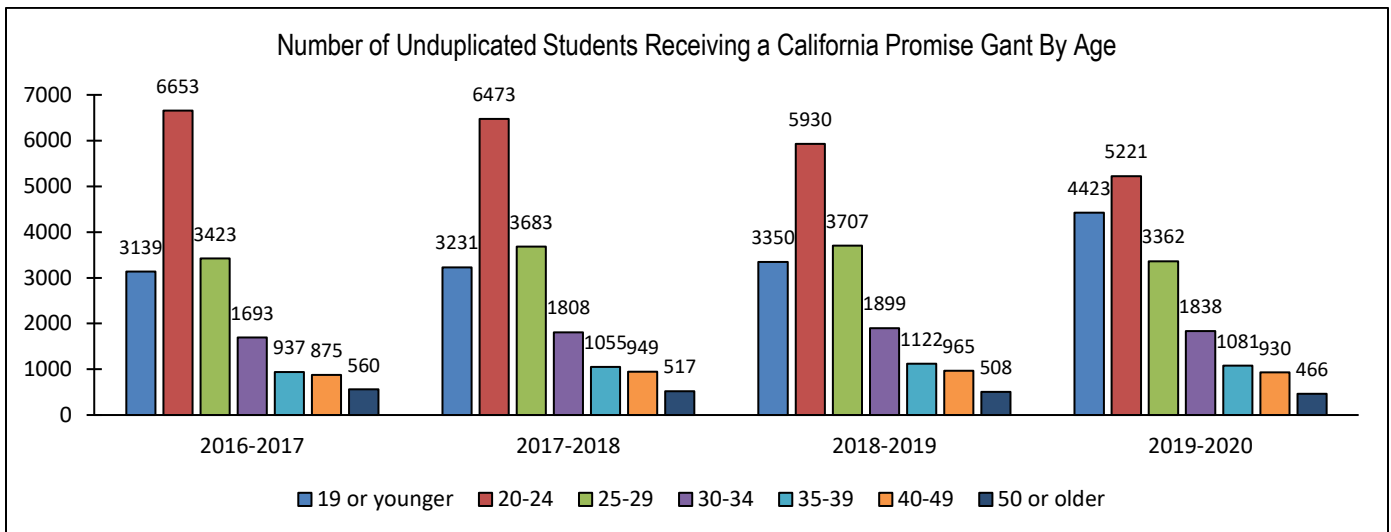

Analysis: The total number of unduplicated students receiving a California Promise Grant has remained stable over the last four years (four-year average of 17450). On average, more females received a California Promise Grant than males (four-year average of 10762 and 6682, respectively). The number of females receiving a California Promise Grant increased by 3.3%, while the number of males receiving a California Promise Grant declined by 4.5%.
