Description of the Vision for Success Board Fellowship

The Board Fellowship is designed to help increase the capacity of boards of trustees and their chief executive officers (CEOs) to achieve excellence and equity through the Vision for Success and to develop a vanguard of CEOs and trustees to support peers across California Community Colleges. In this professional development program, boards will work with national experts in board and presidential leadership— including the Aspen Institute College Excellence Program—to engage with speakers from across the nation and participate in facilitated discussions and interactive activities. By the conclusion of the Vision Board Fellowship, boards will have developed capacity and plans to more effectively support Guided Pathways Reform – considering topics such as specific policies to adopt, data to monitor, structure for the board's time in meetings and work sessions, and refinement of the integrated planning and resource allocation cycle.
