I. Update on move to restrict emails for new students until they register

Sponsor: Jason Brady

- We propose a slightly different method of restricting emails as suggested when talking with Yuba College: limit students who haven't registered for a class to only be able to send and receive from college addresses. They will be unable to receive or send external email.
- Another restriction is to disallow Google Drive, Office 365, and other such access.

II. Rule to prevent dual enrollment students from enrolling in PE courses.

Sponsor: Larry Aycok

- This topic came up during audit.

III. Ongoing Discussions

IV. Miscellaneous

1. Question about the Technology Newsletter

- Joe had question regarding the digital signage, which was mentioned in the Technology Newsletter

2. Orientation Records uploads

- Jason made some changes to the orientation result uploads. It will retry several times if failure is detected during the upload process.
